### HARVEY POND

MADRID TWP, FRANKLIN CO., MAINE

AREA 10 ACRES

# HARVEY POND

Madrid, Franklin County  
U.S.G.S. Jackson Mountain, Maine (7½')

## Fishes

Brook trout  
Minnows  
Golden shiner  
Blacknose dace

White sucker  
Hornpout (bullhead)  
American eel

## Physical Characteristics

Area - 10 acres

Maximum depth - 8 feet

Temperatures:

Surface - 68°F

8 feet - 68°F

Principal fisheries: Brook trout, baitfish

Harvey Pond is located south of Perry Mountain. The pond has a number of very small inlets entering its north end. A short outlet flows southeast into the nearby Sandy River. The pond's shoreline is lightly developed.

Water quality in Harvey Pond is marginal for coldwater gamefish. Water temperatures reach critical levels in the summer months, but brook trout seek cool springs during these periods. Trout utilize limited spawning areas or reach the pond via its outlet to maintain low numbers. Annual stockings supplement the native brook trout to provide a fishery.

Harvey Pond is accessible via a hand carry launch site on Route 4. It is open to fishing with the use of live fish as bait being prohibited in the open water season. The pond is closed to fishing in the winter months.
